

Experience the Light!

Lighting for the furniture industry, shop fitting and residential objects

Klebe GmbH Beleuchtungstechnik is specialised in a wide range of professional and innovative solutions for lighting since 1983.

Our products stand for highest requirements in technique, design and functionality.

Additionally, our customers will take advantage of our many services. This includes cooperative product development with our customer, in-house 3D printing for prototypes, development of electronics for specific lighting control and many more.

Our guarantee: service, quality and a good combination of price and service.

Experience the Light with Klebe.
